Men's Services

www.secasa.com.au

The South Eastern Centre Against Sexual Assault (SECASA) provides sexual assault and family violence services in Victoria within the Mornington Peninsula, City of Frankston, Bayside, Port Phillip, Stonnington, Glen Eira and Kingston local government areas. We also work in the Cities of Greater Dandenong, Casey and Cardinia growth corridor.

It is estimated that 1 in 6 boys are sexually assaulted before the age of 18 years. SECASA has male counsellors available if required for men of all ages.

- Male sexual assault is a social problem that stems from mainly male, but sometimes female, sex offenders using power over boys and men.
- Male sexual assault can involve a range of behaviours including genital touching, oral and anal penetration and exhibitionism. All of these can be traumatising.
- Many male survivors feel confused about sexual identity and masculinity issues.
- Sexual assault also affects self esteem, confidence, trust and intimacy.
- Often men worry that if they were abused in their childhood they will offend in later life. This is rarely the case.
- Counselling can be a relief from the burden of secrecy and dealing with issues alone.

If you would prefer to speak to a male counsellor, male counsellors are located at Dandenong, Seaford, St. Kilda and East Bentleigh offices.
